Soleil

AB 2024

Wear Your Story: Jewelry-Inspired Prosthetic Covers

Soleil is a prosthetic cover solution designed to empower and inspire women with self-acceptance and confidence.

With Soleil, embracing your prosthetic not just as an aid, but as a celebration of your unique style and individuality.

Soleil provides a canvas for customization, allowing the expression of your unique personality however you choose.

Every one deserves to shine bright.

PROFESSIONAL EXPERIENCE

AKJOHNSTON

CAD/Fabrication Intern 2024-Present

- Collaborate with production and design teams to create and refine 3D models and shop drawings for fabrication.
- Develop detailed layouts, elevations, and section views, incorporating material callouts and finishes.
- Conduct quality checks on 3D build drawings and coordinate revisions based on project specifications.
- Partner with the production manager to streamline workflows and ensure timely project delivery.
- Assist with CNC router setup, 3D printing tasks, and shop floor organization to support fabrication processes.
- Source materials and present design modifications to meet client and production needs.

EMOTIONAL UTILITY PRODUCTS

Creative Marketing Contract 2024

- Created marketing materials that streamlined campaigns and ensured cohesive branding.
- Conducted market research, providing insights that improved targeting strategies.
- Contributed ideas in brainstorming sessions, sparking fresh campaign approaches that boosted engagement.
- Developed mood boards, concept art, and mockups, bringing creative concepts to life and improving the brand's visual direction.

OTIS COLLEGE OF ART AND DESIGN X JONATHAN LOUIS

Collaborative Project 2022

- Developed sectional design concepts, blending aesthetic appeal with functional requirements to align with Jonathan Louis' brand identity.
- Coordinated with a team to incorporate innovative ideas, resulting in a selected design showcased at the High Point Furniture Market in North Carolina.
- Leveraged effective communication skills to ensure seamless integration of team contributions.

uFABER

Designer 2019

- Designed original concepts, crafted sketches, wireframes, and 3D renderings that enhanced product visualization and expedited feedback cycles.
- Streamlined design-editing processes, allowing for more precise and impactful product adjustments.

SAGAR CONSTRUCTIONS

Front Desk Worker 2016-2018

- Greeted and assisted clients, ensuring excellent service and efficiently managing inquiries and client needs.
- Oversaw office record-keeping, supply management, and cost monitoring to support operational efficiency.

LIONS CLUB OF NASHIK 2014-2019

- Led and organized community service events, including food and blood donation drives, increasing local engagement and participation.
- Spearheaded sustainable initiatives like tree-planting events, fostering environmental awareness among students and faculty.
